# Nepsis<sup>®</sup> Hosts Record Number at Annual Backyard Concert Event

*Nepsis<sup>®</sup> President and Founder, Mark Pearson welcomed country music entertainers Erin Grand and the Erin Grand Band to an outdoor stage in front of hundreds of fans, located at Pearson's residence in Prior Lake, MN on August 21, 2021 for the company's 3<sup>rd</sup> Annual Backyard Bash*

MINNEAPOLIS, MN (September 30, 2021) – [Nepsis, Inc.](#), a national financial advisor and investment management firm headquartered in Minneapolis, MN, celebrated their clients this fall with a record number of guests attending the company's in-person Backyard Bash concert event.

“We believe in living life richly and celebrating one another,” explained Mark Pearson, President of Nepsis<sup>®</sup>. “Nepsis<sup>®</sup> wouldn't be what it is without our wonderful clients, supportive partners and amazing team. I wanted every one of them here, and it looks like we've had an epic turnout.”

“I've been with Mark and Nepsis<sup>®</sup> for about 11 years. I'm looking forward to celebrating the growth of the company and seeing where he takes it in the next decade,” explained a participant. “This is my first Backyard Bash and I'm having a blast.”

The Backyard Bash featured three country music bands who performed on stage at Pearson's residence, which had been transformed into an outdoor concert venue.

[Erin Grand](https://www.eringrand.com) and the Erin Grand Band kicked off the concert. Born and raised outside the Twin Cities and now based in Nashville, the singer/songwriter embraces a style of music she calls country pop. Her performance included the recently released, "Better With Wine."

The up-and-coming musician, [George Birge](https://www.georgebirge.com) followed Grand. Between songs, Birge smoothly weaved in some of his personal story – a mix of trial and tribulation over the last 18 months as virus concerns and social angst rippled through the country. Emerging talents, like Birge were hindered from building their exposure at live concerts. But according to the **Nashville-based** performer, he "caught a few breaks thanks to a little good luck, and of all things, TikTok," where he was inspired to write and post his debut song, "Beer Beer, Truck Truck."

The six foot seven, platinum-certified singer [Matt Stell](https://www.mattstell.com) and his band wrapped up the blow-out **event just as the sun went down**. Stell's performance proves he is far too powerful of an artist to ever fit into a singular musical category, leaving the entire crowd rocking. His new EP "Better Than That" will be released on October 16.
